

Ibrahim Elkamali

Senior Full Stack Engineer

ibrahimelkamali@gmail.com · elkamali.dev · Marve10s · LinkedIn · IbrahimElkamali

Profile

Based in Istanbul, from Ukraine, self-taught since 2021. I run Listening.com in production end to end, a **600k+ line** codebase used by **11k+** people a month. I fix bugs in the libraries I depend on and reported 3 vulnerabilities in Effect.

Experience

Listening.com

Dec 2024 — now

Senior Full Stack Engineer since Oct 2026 · started as an Astro frontend developer

- Own a TTS platform with **11k+** monthly users that turns papers into **20k+ hours** of audio a month
- Run the OVH Kubernetes cluster, RunPod and Modal GPU workers, PaddleOCR and Textract OCR
- Brought the React Native app to Flutter parity; built Expo OTA updates, CarPlay and Apple Watch
- Built the Electron desktop app and core features of the Chrome extension (2,000 users)
- Built Drive, Dropbox and ChatGPT imports; raised text read from phone scans from 13% to 84%

Upwork

Jun 2024 — now

Full Stack TypeScript Developer · 10+ projects for international clients

- Built Walking Meditations for iOS and Android with Expo and the MathForBusiness platform in Astro
- Worked on GiftSong.ai, an AI song gift app with **148k** users, **650k+** songs and **38k+ hours** of audio
- Fixed its song pipeline end to end: expiring audio links, stuck generations, callback timeouts
- Built Stripe webhook recovery, duplicate-charge guards for video renders and 5-language i18n
- Cut its homepage LCP from 6.8s to 4.3s and shared JavaScript from 189 KB to 109 KB

Security

- **Reported 3 vulnerabilities in Effect** (66M weekly npm downloads), one high-severity, all confirmed

Open Source contributions

Effect 80+ fixes · **T3 Code** · **Material UI** · **React Native**

Fixes merged into 30+ open-source repositories ↗

Projects

Better Fullstack

Visual builder, CLI and MCP server that scaffolds full-stack apps in TypeScript, Rust, Go, Python and Java. Independent fork of Better-T-Stack, **820+** GitHub stars, **~1.8K** npm installs a month.

Awesome Effect

Curated libraries, tools, apps and learning material for Effect. Featured in the official **This Week in Effect #133** blog post.

Skills & tools

Languages & frameworks	TypeScript · JavaScript · React · TanStack · Astro · Effect-TS · Python · Rust
Apps & interfaces	React Native · Expo · Electron · WXT · Tailwind CSS
Backend & data	TanStack Start · HonoJS · PostgreSQL · Drizzle ORM · Bun
Infrastructure	Kubernetes · GitHub Actions · RunPod · Modal · AWS

Background

BSc Computer Science, 2022—2026
Odesa National Polytechnic University

English fluent · **Ukrainian, Russian** native
Arabic and Turkish basic
